EXPERIENCE

Independent BI Developer | Power BI competitions and projects | May 2025 – Present

- Won 2 DataBuzz monthly Power BI challenges (May and Sep 2026) and placed runner-up twice, building end-to-end reports on audit and compliance, e-commerce, UK transport and UK insurance claims data.
- Built the Adventure Works sales and strategy report (live report): Power Query ETL from web sources with parameters and staging queries, a star schema with two fact tables, and 125 DAX measures organized into display folders via TMDL.
- Wrote advanced DAX: dynamic YoY up to the last sale date, attach rate with a disconnected table and TREATAS, new vs repeat customer logic, and TOPN-based KPI winners.
- Designed the report experience for executives: bookmarks, popups, synced slicers, report-page tooltips, flip KPI cards, alt text and a documentation page; wrote findings and recommendations for a CEO audience.

Flipkart Pvt. Ltd., Bengaluru | Senior Executive | Dec 2019 – May 2025

Category Planning & Deal Strategy (Jul 2024 – May 2025)

- Supported category planning and deal strategy across 200+ categories, using SQL and Excel to analyze revenue, conversion and funnel trends; seasonal demand analysis contributed to a 12% revenue increase.
- Tracked and reported KPIs to evaluate deal effectiveness, resulting in a 15% improvement in conversion rates.
- Worked with cross-functional stakeholders to translate business objectives into measurable performance metrics.

Content & Copy (Dec 2019 – Jun 2024)

- Wrote app UI copy, SEO and multi-channel marketing copy; led thematic campaign pages from ideation to execution.

Packt Publishing Pvt. Ltd., Mumbai | Technical Editor | Content Development Editor | Aug 2013 – Sep 2015

- Reviewed 60+ technical publications and validated code across 20+ programming books, identifying 150+ bugs.

PROJECTS

- **Blinkit Sales & Operations Dashboard** (View): star-schema model and DAX; Pareto analysis showed the top 10 products drive ~38% of revenue.
- **Supply Chain Analytics Dashboard** (View): analyzed 180K+ orders to identify delivery delays and logistics inefficiencies.
