## PROFESSIONAL SUMMARY

Microsoft Certified Analytics Engineer (PL-300, DP-600, DP-700) transitioning into data & BI roles with hands-on project experience in Power BI, DAX, and the Microsoft Fabric ecosystem. Backed by 1 year of category analytics at Flipkart and strong business acumen developed across 5+ years in a data-driven e-commerce environment.

## TECHNICAL SKILLS

**BI & Analytics:** Power BI Desktop/Service, DAX (measures, time intelligence, optimization), Power Query, Star Schema, Data Modeling, RLS, Paginated Reports, Performance Analyzer, Tableau

**Data & Programming:** SQL (joins, aggregations, subqueries, window functions), Python (pandas, NumPy, EDA), Excel, ETL basics, data quality checks, KNIME, applied ML (classification, clustering)

**Platforms:** Microsoft Fabric (Lakehouse, Warehouse, Semantic Models, incremental refresh), Power BI Service, Report Builder

**Analytics & Business:** KPI definition & performance tracking, requirements gathering, stakeholder collaboration, data-driven decision support, trend & funnel analysis

## WORK EXPERIENCE

**Flipkart Pvt. Ltd., Bengaluru** | Senior Executive | Dec 2019 – May 2025

*Role evolved from content to category analytics and deal strategy (Jul 2024 – May 2025)*

### Category Analytics (Jul 2024 – May 2025)

- Analyzed category-level metrics (revenue, conversion, funnel) across 200+ product categories; trend analysis on seasonal demand contributed to a 12% revenue increase.
- Tracked and reported KPIs to evaluate deal effectiveness, resulting in a 15% improvement in conversion rates.
- Collaborated with cross-functional stakeholders to translate business objectives into measurable performance metrics.

### Content & Copy (Dec 2019 – Jun 2024)

- Created app UI copy, SEO articles, blogs, and multi-channel marketing copy (push, SMS, Facebook, WhatsApp); led end-to-end thematic campaign pages from ideation to execution.

**Packt Publishing Pvt. Ltd., Mumbai** | Technical/Content Editor | Aug 2013 – Sep 2015

- Reviewed 60+ technical publications and validated code accuracy across 20+ programming books, identifying 150+ bugs and improving accuracy by 25%.

## SELECTED ANALYTICS PROJECTS

### Blinkit Sales & Operations Analytics Dashboard (Power BI) → [View Project](#)

- Designed a star-schema semantic model and built multi-page Power BI dashboards analyzing revenue, product performance, customer segments, and delivery operations using DAX measures.
- Pareto analysis revealed top 10 products drive ~38% of revenue; found ~30% of orders linked to delivery delays impacting revenue, with impact driven by order frequency rather than lower AOV.

### Supply Chain Analytics Dashboard (Power BI) → [View Project](#)

- Analyzed 180K+ order-level data to identify delivery delays, logistics inefficiencies, and KPI-driven operational improvements.

## CERTIFICATIONS

PL-300 – Power BI Data Analyst (Nov 2025) | DP-600 – Fabric Analytics Engineer (Dec 2025) | DP-700 – Fabric Data Engineer (Jan 2026) | Excel Essentials, Macquarie University (2022)

## EDUCATION

**Post Graduate, Data Science & Business Analytics** – Great Learning / Texas McCombs School of Business (2024)

**MBA, Marketing Management** – Manipal University Jaipur (2023)

**B.E., Chemical Engineering** – Bharathi Vidyapeeth College of Engineering, Mumbai University (2013)
